REFERENCE: Lunday-Thagard's Rule 1173 Compliance Plan

Dear Mr. Rios:

The South Coast Air Quality Management District (District) has received and reviewed a Title V application for a Minor Permit Revision to the Lunday-Thagard Company's (Lunday) Facility Permit. This Title V permit revision meets all the requirements of a Minor Permit Revision as defined in Rule 3000(b)(12).

The District proposes to approve Lunday's Rule 1173 Compliance Plan, submitted under Application No. 503963. This approval will have no impact on emissions. There will be no increase in emissions as the plan is for installing monitoring devices to track releases from PRDs.

As required under Rule 3003(j), AQMD is providing a copy of the proposed permit to the EPA administrator for a 45-day review. A copy of the proposed revision to the existing Title V Permit, Section I, is attached along with our draft plan approval letter and plan evaluation for your review. As agreed with your staff, we are submitting the required documents to the email address R9AirPermits_SC@epa.gov.

If you have any questions or wish to provide comments regarding this proposed permit, please contact Mr. Johnny Pan at (909) 396-3612 (jpan@aqmd.gov).

Sincerely,
