RE: NOTICE OF INTENT TO ISSUE "PERMIT TO CONSTRUCT" PURSUANT TO RULE 212
AND TITLE V PERMIT PURSUANT TO RULE 3006

Dear Mr. Rawal,

I am writing to you to express my concern over the intent to issue a permit to Sunshine Gas Producers, LLC. for a Landfill Gas Treatment and Landfill Gas to Energy System. As a resident of the surrounding community, I oppose any such action.

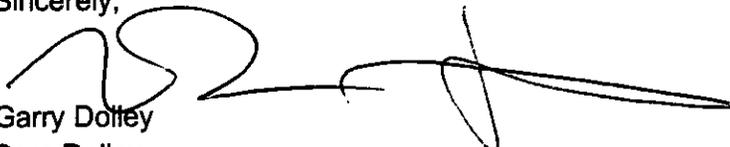

The Sunshine Canyon Landfill has not yet resolved the issue of horrible odors that myself, my wife, and the surrounding community smell and file complaints about on an almost daily basis.

In addition, it is not acceptable that this new energy facility be built without mechanisms in place to post-scrub the contaminants out of the air in order to bring the facility to at least the level of the existing flares.

Let it be known that we will hold the AQMD responsible for any such decisions when a lawsuit is filed to address these concerns.

WE HAVE DEALT WITH POOR AIR QUALITY FOR TOO LONG. THIS PERMIT IS UNACCEPTABLE.

Sincerely,

Garry Dolley
Sara Dolley
