Dear Mr. Martinez:

Enclosed is Revision 1 of Section D of the Title V permit, for the facility listed above, that has been issued by the South Coast Air Quality Management District (AQMD). This revision was issued to correct condition No. 10 on the Permit to Operate F65483 for the Air Pollution Control System Serving a Two Rack Gasoline Bulk Loading Facility. The AQMD has determined that this is an administrative change necessitated by an AQMD oversight made when the Initial Title V permit was issued.

Please replace the Cover Page, Table of Contents and Section D of your Title V permit with the new documents enclosed with this letter notification. If you have any questions, please contact Tom Witte of the Refinery and Waste Management Team at (909) 396-2521.

Sincerely,

Jay Chen, P.E.
