Mr. Chung Chiu  
Facilities Manager  
Arlon, Materials for Electronics Division  
9433 Hyssop Drive  
Rancho Cucamonga, CA 91730

**SUBJECT:** Title V Facility Permit Revision (Facility ID: 046646)

Dear Mr. Chiu:

Please find attached the revised Title Page, Table of Contents, and Section D of your Title V Facility Permit. The revised sections reflect the approval of the permit revision requested in your Application No. 545265. The proposed permit revision was submitted to EPA for 45-day review on January 18, 2013. This permit revision includes the modification of Fiberglass Cloth Impregnating System No. 2 with low NOx burners to comply with the requirements of Rule 1147 – NOx Reductions from Miscellaneous Sources. Initially you requested to replace the existing burners with three 1,350,000 BTU/HR low NOx burners. It is your intent now to modify the oven by replacing the burners with three 500,000 BTU/HR low NOx burners. Since this revised request has an emission potential less than the proposed permit revision we submitted to EPA for review, a revised submittal to EPA is not needed.

Equipment	Application No.	Permit Type
Fiberglass Cloth Impregnating System No.2	545264	P/C

Please review the attached sections carefully. Insert the enclosed sections into your Facility Permit and discard the earlier versions. Questions concerning changes to your permit should be directed to Mr. Shailesh Patel at (909) 396-2681.

Sincerely,

Brian L. Yeh  
Senior Manager  
Coating, Printing, Plating, Military &  
Entertainment Operations
