This is an existing facility applying for a Title V permit renewal that is engaged in commercial lithographic printing. The facility operates heat-set lithographic printing systems and associated ovens, and other supporting equipment. Volatile organic compound emissions from the ovens associated with the heat-set lithographic printing systems are vented to an air pollution control equipment regenerative thermal oxidizer.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested the AQMD to renew their Title V permit. The proposed permit incorporates updates to the facility information provided in the facility's Title V renewal application and all rules and regulations that are currently applicable to the facility.

The proposed permit is available for public review at the AQMD, 21865 Copley Dr., Diamond Bar,

CA 91765 and at the Garden Grove Regional Library, 11200 Stanford Avenue, Garden Grove, CA 92842. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review. For more information or to review additional supporting documents, call Hamed Mandilawi at (909) 396-3275. Written comments should be submitted to:

Public hearing request forms and the schedule of public hearings may be obtained from the AQMD website at <http://www.aqmd.gov/titlev>. Requests for a public hearing are due by January 24, 2012.
