Mr. Gerardo Rios
U. S. EPA, Region IX
Mail Stop A-5-2
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Rios:

Proposed De-Minimus Significant Revision to Title V Permit for SFPP, L.P., Watson Station – (ID# 800278)

Enclosed for your 45-day review is the proposed revision to the Title V Permit for SFPP, L.P., Watson Station, located at 20410 S. Wilmington Ave., Carson, Ca 90810.

SECTION D- PERMIT TO OPERATE

Appl. No.	Equipment	Description
458593	Vapor Collection and Disposal System	Permitted Equipment Modified Without Permit approval.

SECTION H- PERMIT TO CONSTRUCT

Appl. No.	Equipment	Description
472642	Alter Existing Vapor Collection and Disposal System	Equipment to be modified by the addition of: <ol style="list-style-type: none">1. Two tube vessels.2. Two surge tanks, each with a 60 bbl capacity.3. One surge tank with a 90 bbl capacity.

This proposed permit revision is considered a "de minimus significant permit revision" to the Title V permit (Section D, Revision 2, issued on December 1, 2009 and Section H, Revision No. 1 issued March 4, 2009). Attached for your 45-day review is a draft of the proposed portions of Section D, Section H, and the associated engineering evaluations. A public notice is not required.

The initial Title V permit for this facility was issued on February 23, 2009. This is the third revision to Section D and the second revision to Section H, and is covered under Application No. 502202. The proposed changes cause slight increases in VOC emissions due to fugitive component calculations.

This package is being submitted electronically in order to facilitate your review. If you have any questions or wish to provide comments regarding this project, please call the processing engineer, Mr. Al King, P.E. at (909) 396-2637.

Very truly yours,

Jay Chen
