Re: Application to Renew Title V Permit for Facility ID No. 800209

Dear Mr. Chen:

BKK Corporation is pleased to submit an application to renew its Title V permit for the BKK Landfill site in West Covina. Our activities are necessary to support the ongoing postclosure care of this closed landfill facility which last accepted trash in 1996. As requested we are submitting this timely renewal application before the deadline of April 3, 2010. This package is comprised of the following completed forms and other attachments:

1. AQMD Title V Application Forms - Decision Matrix for Form Submittal Determination
2. Form 400-A Application for Permit to Construct and Permit to Operate
3. a check in the amount of \$1,547.87 for the processing fee (see below)
4. Form 400-CEQA California Environmental Quality Act (CEQA) Applicability
5. Form 500-A2 Title V Application Certification
6. Form 500-B Title V List of Exempt Equipment
7. Form 500-C1 Title V Compliance Status Report
8. Form 500-H Title V Applicability Determination - CAM

The check amount is calculated as \$1,916.59 for the Title V renewal application per Rule 301(l)(8) with a 50 percent discount for a small business per Rule 301(c)(1)(E), plus three times \$393.05 for three CAM Plans per Rule 306(i) with a 50 percent discount for a small business per Rule 306(j). This yields  $(\$1,916.59)(0.50) + (3)(\$393.05)(0.50) = \$1,547.87$ .

If there are any questions, please don't hesitate to call me at (626) 965-0911 x353.

Sincerely,  
BKK CORPORATION

**NOTICE TO COMPLY No. D 24121  
BKK Landfill Site, West Covina, California**

**Application to Renew Title V Permit for Facility ID No. 800209  
April 2010**

Item 12 of Form 400-A asks whether a Notice of Violation (NOV) or a Notice to Comply (NC) has been issued. NC No. D 24121 was issued on June 30, 2009 in which the South Coast AQMD inspector was at the BKK Landfill site and asked for copies of twelve documents that had previously been submitted to the District but which were not made available to the inspector at the time of the inspection.

Unfortunately, the inspector did not conduct the inspection with a representative of BKK Corporation. Please note that the site is owned by and the AQMD permits are held in the name of BKK. The inspector conducted the inspection with a representative of the Class I landfill potentially responsible parties (PRPs). While BKK believes that the PRPs have copies of the twelve documents, the PRPs apparently did not provide them to the inspector and AQMD subsequently issued an NC to BKK for the actions/inactions of the PRPs.

BKK respectfully asks that, in the future, AQMD please engage BKK (not the PRPs) in compliance inspections which may result in NOV's or NC's to BKK.

BKK submitted a response to the NC and provided additional copies of the twelve documents to the District on July 27, 2009. The company has not received a reply. BKK is under the impression that the issue is closed.

The SCAQMD is required by state law, the California Environmental Quality Act (CEQA), to review discretionary permit project applications for potential air quality and other environmental impacts. This form is a screening tool to assist the SCAQMD in clarifying whether or not the project<sup>1</sup> has the potential to generate significant adverse environmental impacts that might require preparation of a CEQA document [CEQA Guidelines §15060(a)].<sup>2</sup> Refer to the attached instructions for guidance in completing this form.<sup>3</sup> For each Form 400-A application, also complete and submit one Form 400-CEQA. If submitting multiple Form 400-A applications for the same project at the same time, only one 400-CEQA form is necessary for the entire project. If you need assistance completing this form, contact Lori Inga at (909) 396-3109.

Use this form for all application submittals requesting an initial Title V permit or permit renewal. If you are applying for a permit revision, you may also use this form to have your exempt equipment listing updated prior to renewing your permit.

This form is designed to summarize all of the equipment at a facility that is exempt from AQMD permit requirements (e.g., I.C. Engines <= 50 BHP, Boilers < 2 MM BTU/hr etc.). This equipment can be listed according to category. However, if there is a specific device that is vented to control equipment, then the equipment must be listed separately. Trivial activities listed on the back of this form or the Technical Guidance Document do not have to be listed on this form. Note: If your facility is in the RECLAIM program, it is not necessary to repeat any equipment currently listed in Appendix A of the RECLAIM permit.

<sup>1</sup> Cleaning and painting activities qualify as trivial if they are not subject to VOC or HAP control requirements. Asphalt batch plant owners/operators must still get a permit if otherwise required.

<sup>2</sup> "Moved by hand" means it can be moved without the assistance of any motorized or non-motorized vehicle, conveyance or device.

<sup>3</sup> Brazing, soldering and welding equipment, and cutting torches related to manufacturing and construction activities that emit HAP metals are more appropriate for treatment as unpermitted equipment. Brazing, soldering, welding and cutting torches directly related to plant maintenance and upkeep and repair or maintenance shop activities that emit HAP metals are treated as trivial and listed separately in this appendix.

<sup>4</sup> Many lab fume hoods or vents might qualify for treatment as unpermitted equipment.

<sup>5</sup> Exemptions for storage tanks containing petroleum liquids or other volatile organic liquids should be based on size limits such as storage tank capacity and vapor pressure of liquids stored and are not appropriate for this list.

To provide the compliance status of your facility with applicable federally enforceable requirements and identify other local-only requirements, complete this form and attach it to a completed compliance certification Form 500-A2. As appropriate, all submittals of Form 500-C2 as appropriate should also be attached to this form.

**PROCEDURES FOR DETERMINING COMPLIANCE STATUS**

1. **Equipment verification:** Review the list of pending applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies.
2. **Identify applicable requirements\*:** Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test methods, and monitoring, recordkeeping and reporting (MRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility.  
The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Check off each box adjacent to the corresponding requirement as it applies to your particular equipment/process.  
Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be checked.
3. **Identify additional applicable requirements\*:** Use Section III to identify any additional requirements not found in Section II. Section II is not a complete list of all applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here.
4. **Identify any requirements that do not apply to a specific piece of equipment or process:** Also use Section III to identify any requirements that are listed in Section II but that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not apply. Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and is approved by AQMD.
5. **Identify SIP-approved rules that are not current AQMD rules:** Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in the State Implementation Plan (SIP), and that are still applicable requirements as defined by EPA. The facility is not required to certify compliance with the items checked in Section IV provided that the non-SIP approved rule in Section II is at least as stringent as the older SIP-approved version in Section IV. \*\*
6. **Identify Local-Only Enforceable Regulatory Requirements:** Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable.
7. **Determine compliance:** Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies with all applicable requirements, complete and attach Form 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of the applicable requirements, complete and attach Form 500-C2 in addition to Form 500-A2.

\* The following AQMD rules and regulations are not required to be included in Section II and do not have to be added to Section III: Regulation I, List and Criteria in Regulation II, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VIII, Regulation XII, Regulation XV, Regulation XVI, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation XXX.

\*\* Emission units adversely affected by the gap between current and SIP-approved versions of rules may initially be placed in a non-Title V portion of the permit
