Dear Mr. Rios:

The South Coast Air Quality Management District (AQMD) has received from THUMS Long Beach Company a Title V application, A/N 470216, for a "minor permit revision."

The modification under this minor permit revision includes the proposed change of condition for the gas turbine (A/N 470210). The operator has requested that the turbine's emission limits shall be adjusted for a 31-day month operation at the maximum rated conditions as allowed by SCAQMD Rule 1306.

The AQMD is required under Rule 3005 (e) to provide a copy of the proposed permit to the EPA Administrator for a 45-day review. As such, a copy of the proposed revision to the existing Title V permit is attached along with our engineering analysis for your review. If you have any questions or wish to provide comments regarding this project, please call Mr. Chandrashekhar S. Bhatt (909) 396-2653.

Very truly yours,
