

# COMPLIANCE AND ENFORCEMENT DIVISION

## OFFICE MEMORANDUM

February 22, 2001

TO: WM. DEBOISBLANC, DIRECTOR, PERMIT SERVICES

FROM: JIM GUTHRIE, DIRECTOR OF ENFORCEMENT

SUBJECT: **REVIEW OF COMPLIANCE RECORD OF:**

### SANTA FE PACIFIC PIPELINE (SFPP), LP (PLANT # 4022)

---

In keeping with standard practice, the Compliance and Enforcement Division has conducted a review of the compliance record of:

#### **SFPP, LP**

This memorandum is intended to provide you with the results of the review, and to advise of further action, if any, that will be initiated by the Director of Enforcement.

#### **Background**

It is standard practice of the Compliance and Enforcement Division to undertake a compliance record review in advance of the initial renewal of a Permit to Operate. The purpose of this review is to assure that any non-compliance problems identified during the prior permit term or twelve months have been adequately addressed. Additionally, the review is intended to recommend such additional permit conditions and limitations as may be necessary to reasonably assure on going compliance.

#### **Finding**

The Enforcement Division staff has commenced a review of the records for the SFPP, LP for January 1, 2000 to December 31, 2000. This review was initiated as part of the District evaluation of an application by SFPP, LP for a Title V Permit. During the period subject to review, SFPP's activities known to the District include:

There were no Notices of Violation issued during this review period.

The District did not receive any alleged complaints.

SFPP is not under a variance or an Order of Abatement by the District.

There were no Monitor excesses or equipment breakdowns reported or documented by District Staff for SFPP.

### **Conclusions**

The Director of Enforcement finds that on-going compliance can be reasonably assured for this facility, for the review period, due to the above record.

### **Recommendations**

The Director of Enforcement believes that the proposed application for a Title V Permit is adequate and recommends that the Director of the Permit Services Division approve this application.
