## CERTIFIED MAIL RETURN RECEIPT REQUESTED

August 14, 2008

Mr. Dennis Baer  
President  
Woodcase Fine Cabinetry Inc.  
3255 W Osborn Rd  
Phoenix, AZ 85017

Reference: Title V Permit Number V97014  
Application Number 372578  
Minor Revision Number 0.1.2.0

Dear Mr. Baer:

This letter is to inform you that the Maricopa County Air Quality Department (MCAQD) has approved the above referenced minor revision.

The following revisions to Title V Permit Number V97017 have been approved:

- Added the provision as Permit Condition 18. A. 4) d) The Permittee shall not cause, allow, or permit HAP emissions to exceed one (1) ton for any HAP or 2.5 tons for any combination of HAPs in any consecutive 12 month period. At the time the proposed rule eliminating the EPA's "once in, always in" policy becomes final, Woodcase may submit an application for permit revision to remove the MACT requirements from the permit.

Modified Permit condition 20.A. to include HAP monitoring and recordkeeping requirements to the Permit Condition.

Appendix A Equipment List. Added one (1) Voorwood Model A525B Arch Shaper Sander, removed one (1) Unique Profile Sander Model 320, added one (1) Akron Model 425 Edgebander, removed one (1) Holzher Model 1437 SE Edgebander and added two (2) Prime Heat Systems Halcon 8' Heat Tunnels.

The above determination has been made pursuant to MCAQD Rule 210, Section 405, which mirrors federal rules under 40 CFR Part 70. Please recognize that this determination remains subject to a 45 day EPA review that begins on the above date.
