This is an existing facility applying for a Title V permit renewal that is engaged in aluminum beverage can manufacturing. The facility operates three can coating, drying and printing lines, storage tanks, three boilers, an emergency internal combustion engine, a baghouse, and other supporting equipment. Volatile organic compound emissions from the three can manufacturing lines are vented to an air pollution control equipment afterburner.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested the AQMD to renew their Title V permit. The proposed permit incorporates updates to the facility information provided in the facility's Title V renewal application and all rules and regulations that are currently applicable to the facility.

CA 91765 and at the Riverside Public Library, 3581 Mission Inn Avenue, Riverside, CA 92501. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review.
