Mr. Kevin Monahan
Asset Manager
Hamakua Energy Partners, LP
34759 Lencioni Avenue
Bakersfield, California 93308

13-1044E CAB
File No. 0243

Dear Mr. Monahan:

Subject: Amendment to Covered Source Permit (CSP) No. 0243-01-C
Minor Modification Application No. 0243-04
Hamakua Energy Partners, LP
65 MW Cogeneration Facility
Located At: Hamakua Sugar Mill, Haina, Hawaii
Date of Expiration: [five years from DATE]

In accordance with Hawaii Administrative Rules, Chapter 11-60.1, and pursuant to your May 29, 2013 minor modification application, the Department of Health, Clean Air Branch (Department), hereby amends CSP No. 0243-01-C, issued to Hamakua Energy Partners, LP, on August 3, 2009. The amendment removes the notification requirement when the facility is operating in simple cycle mode.

Attachment II, Special Condition 1.g, reads:

g. Combined-Cycle Mode

Except for maintenance, equipment breakdown, or other reasonable problems that may occur during combined-cycle operation, the combustion turbine(s) shall not operate in simple-cycle once the conversion to combined-cycle has been completed. If Hamakua Energy Partners, LP, plans to operate the turbine(s) in simple-cycle, the Department shall be notified of the reason for operating in simple-cycle, and the date of operation in simple-cycle and proposed date to operate in combined-cycle.

Attachment II, Special Condition 1.g, is no longer a valid permit condition and is hereby removed from the subject permit. All other permit conditions of CSP No. 0243-01-C, issued on August 3, 2009 shall not be affected and shall remain valid.

If you have any questions regarding this matter, please contact Mr. Kevin Kihara my staff at (808) 586-4200.

Sincerely,

NOLAN S. HIRAI, P.E.
Manager, Clean Air Branch
