Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Subject: SCE, Mira Loma Generating Station (ID 51003) – Title V Permit
Revision (Application No. 543409)

SCE has proposed to revise their Title V permit by including a condition which allows a 'sliding scale' annual start up vs annual fuel use limit, and to increase the number of uncontrolled annual hours of operation for the turbine to account for tuning and testing. This is a power plant (SIC 4911) located at 13568B Milliken Ave, Ontario, CA 91761. This proposed permit revision is considered a "de minimis significant permit revision" to their Title V permit. Attached for your review is the permit evaluation and proposed Section D. With your receipt of the proposed Section D today, we will note that the EPA 45-day review period begins as of the date of this letter.

If you have any questions or need additional information regarding the proposed permit revision, please call Chris Perri at (909) 396-2696.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Andrew Y. Lee", is written over the typed name and title.

Andrew Y. Lee
