Mr. Gerardo Rios  
Chief – Permits Office  
U. S. EPA, Region IX  
75 Hawthorne Street, Air 3  
San Francisco, CA 94105

Dear Mr. Rios:

Subject: Dart Container Corporation of California (ID 3721) – Title V Permit  
Revision

Dart Container Corporation of California (ID 3721) has proposed to revise their Title V permit by adding one post-consumer polystyrene foam product recycle system and by modifying an existing air pollution control system. Dart Container Corporation of California is a polystyrene product manufacturing facility (SIC 3086) located at 150 S. Maple Street, Corona, CA 92880. This proposed permit revision under Application No. 512522 is considered a “de minimis significant permit revision” to their Title V permit. Also included is the administrative permit revision to convert a Permit to Construct, previously issued for a regenerative thermal oxidizer, to a final Permit to Operate. Attached for your review are the evaluation and permit for the proposed revision. With your expected receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period begins on February 25, 2011.

If you have any questions or need additional information regarding the proposed permit revision, please call Stephen Jiang of my staff at (909) 396-3134.

Very truly yours,

A handwritten signature in black ink, appearing to read "Brian L. Yeh", is written over a diagonal line that extends from the signature down towards the typed name below.
