Dear Mr. Dambrun:

**SUBJECT:** RECLAIM/Title V Facility Permit Revision (Facility ID: 018931)

Please find attached the revised Title Page, Table of Contents, and Section H of your RECLAIM/Title V Facility Permit. The revised sections reflect the approval of the permit revision requested on your Application No. 558456. The proposed permit revision was submitted to the EPA for 45-day review on January 16, 2015. This permit revision includes modification to baghouse dust reclaim system, replacement of Electric Arc Furnace (EAF) baghouse, and replacement of EAF supplemental burners. The changes are summarized below:

| Equipment                     | Device No.      | Application No. | Permit Type |
|-------------------------------|-----------------|-----------------|-------------|
| Baghouse Dust Reclaiming      | D94,D95,D96,D97 | 558457          | PC          |
| Baghouse (venting EAF)        | C103            | 558458          | PC          |
| EAF (aux. burner replacement) | D4              | 558459          | PC          |

TAMCO/Gerdau is located at 12459-B Arrow Route, Rancho Cucamonga, CA. We requested and received an expedited EPA review and approval of this project. Please be advised that although the EPA terminated their review early, the 60-day period for the public to petition the Administrator to object to the permit begins the day after the EPA's 45-day review period would otherwise end (on or about March 7, 2015).

Please review the attached sections carefully. Insert the enclosed sections into your RECLAIM/Title V Facility Permit and discard the earlier versions. Questions concerning changes to your permit should be directed to Mr. Richard Hawrylew at (909) 396-2657.

Sincerely,

Mohan Balagopalan
