Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

NASA Jet Propulsion Laboratory (I.D. 011887) has proposed to revise their Title V permit by adding a new airtight degreaser (D169). Also included with this revision is the administrative revision to convert the Permit to Construct for an emergency internal combustion engine (D168) to Permit to Operate, and to remove the replaced emergency internal combustion engine (D15). This is an aerospace research and development facility (SIC 9661) located at 4800 Oak Grove Drive, Pasadena, CA 91109. This proposed permit revision as requested under Application Number 555611 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluations and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on October 22nd.

If you have any questions or need additional information regarding the proposed permit revision, please call Stacey Ebner at (909) 396-2504.

Very truly yours,

A handwritten signature in black ink that reads "Amir Dejbakhsh".
