Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Western Tube and Conduit Corp. (I.D. 022092) has proposed to revise their Title V permit by changing permit conditions of three coating equipment, and modifying seven coating equipment and a regenerative thermal oxidizer. This is a steel tube manufacturing facility (SIC 3317) located at 2001 East Dominguez Street, Carson, CA 90810. This proposed permit revision as requested under Application Number 472361 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. Also, enclosed are Section K and Appendix B reflecting updates to some of the rules applicable to the facility. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on May 29, 2008.

If you have any questions or need additional information regarding the proposed permit revision, please call Hamed Mandilawi at (909) 396-3275.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Fred Lettice', is written above the typed name.
