Dear Mr. Rios:

Subject: SCE, Mountainview Generating Station (ID 160437) – Title V Permit  
Revision (Application No. 562527)

SCE has proposed to revise their Title V permit by revising the time between calibration of the SCR thermocouples and ammonia flow meters from 12 months to 13 months and updating the Responsible Official. This is a power plant (SIC 4911) located at 2492 W. San Bernardino Ave, Redlands, CA 92374. This proposed permit revision is considered a “minor permit revision” to their Title V permit. Attached for your review is the permit evaluation and proposed Sections A and D. With your receipt of the proposed Sections A and D today, we will note that the EPA 45-day review period begins as of the date of this letter.

If you have any questions or need additional information regarding the proposed permit revision, please call Chris Perri at (909) 396-2696.

Very truly yours,
