Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Steelscape, Inc. (ID 126498) has proposed to revise their Title V permit by modifying a sheet metal coil process line by replacing the “finish” roll coater. This is a metal coil coating facility (SIC 3479) located at 11200 Arrow Route, Rancho Cucamonga, CA 91730. This proposed permit revision as requested under Application Number 529303 is considered as a “minor permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on December 15th.

Steelscape, Inc. submitted applications for this project on November 17, 2011, with the timeline to modify the existing process line during a shutdown scheduled for the end of December 2011. The facility did not factor in the 45 day EPA review requirement and is requesting an expedited review by EPA. I have attached a letter from the facility to AQMD requesting an expedited EPA review. Your consideration of this request is appreciated.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703 or Rene Loof at (909) 396-2544.

Very truly yours,

A handwritten signature in black ink that reads "Ed Muehlbacher".
