Section IV - Title V Application

1. This is an application for a(n) (Check all applicable boxes and provide the requested information as appropriate):
 - a. Initial Title V Permit
 - b. Permit Renewal: Provide current permit expiration date: ___ / ___ / ___
 - c. Administrative Permit Revision (Check all that apply)
 - Change of Ownership. (Complete and attach equipment-specific Form 400-E-xx series forms)
 - Change of Facility Information
 - Other, Please specify: _____
 - d. Other (Complete and attach equipment specific Form 400-E-XX series form(s) to this form if your application involves permit action for new construction, change of location, non-administrative permit revision, alternative operating scenario (AOS), permit shield, streamlined permit conditions, or temporary source permit.)
2. Is this facility required to prepare a Risk Management Plan (RMP) for another agency? Yes No

Section V - Title V Submittal Checklist

1. Enter the quantity of each type form submitted in the space provided:

SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT
Compliance Status Report

To provide the compliance status of your facility with applicable federally-enforceable requirements and identify other local-only requirements, complete this form and attach it to a completed compliance certification Form 500-A2. As appropriate, all submittals of Form 500-C2 as appropriate should also be attached to this form.

Section I - General Information

1. Facility Name: ARCO COCKLEIN

Facility ID (6-Digit): 47232

PROCEDURES FOR DETERMINING COMPLIANCE STATUS

- Equipment verification:** Review the list of pending applications, and either the preliminary Title V facility permit or the list of current permits to operate that the AQMD provided you, to determine if they completely and accurately describe all equipment operating at the facility. Attach a statement to describe any discrepancies.
- Identify applicable requirements*:** Use the checklist in Section II to identify all applicable and federally-enforceable local, state, and federal rules and regulations, test methods, and monitoring, recordkeeping and reporting (MRRR) requirements that apply to any equipment or process (including equipment exempt from a permit by Rule 219) at your facility.
The potential applicable requirements, test methods and MRR requirements are identified and listed adjacent to each given equipment/process description. Check off each box adjacent to the corresponding requirement as it applies to your particular equipment/process.
Note: Even if there is only one piece of equipment that is subject to a particular requirement, the appropriate box should be checked.
- Identify additional applicable requirements*:** Use Section III to identify any additional requirements not found in Section II. Section II is not a complete list of all applicable requirements. It does not include recently adopted NESHAP regulations by EPA or recent amendments to AQMD rules. Do not add rules listed in Section V here.
- Identify any requirements that do not apply to a specific piece of equipment or process:** Also use Section III to identify any requirements that are listed in Section II but that do not apply to a specific piece of equipment or process. Fill out Section III of this form and attach a separate sheet to explain the reason(s) why the identified rules do not apply.
Note: Listing any requirement that does not apply to a specific piece of equipment will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and is approved by AQMD.
- Identify SIP-approved rules that are not current AQMD rules:** Use Section IV to identify older versions of current AQMD rules that are the EPA-approved versions in the State Implementation Plan (SIP), and that are still applicable requirements as defined by EPA. The facility is not required to certify compliance with the items checked in Section IV.
- Identify Local-Only Enforceable Regulatory Requirements:** Use Section V to identify AQMD rules that are not SIP-approved and are not federally enforceable.
- Determine compliance:** Determine if all equipment and processes are complying with all requirements identified in Sections II and III. If each piece of equipment complies with all applicable requirements, complete and attach Form 500-A2 to certify the compliance status of the facility. If any piece of equipment is not in compliance with any of the applicable requirements, complete and attach Form 500-C2 in addition to Form 500-A2.

* The following AQMD rules and regulations are not required to be included on this form, and therefore are not listed in Section II and do not have to be added to Section III: Regulation I, List and Criteria in Regulation II, Rule 201, Rule 201.1, Rule 202, Rule 203, Rule 205, Rule 206, Rule 207, Rule 208, Rule 209, Rule 210, Rule 212, Rule 214, Rule 215, Rule 216, Rule 217, Rule 219, Rule 220, Rule 221, Regulation III, Regulation V, Regulation VII, Regulation XII, Regulation XV, Regulation XVII, Regulation XIX, Regulation XXI, Regulation XXII, and Regulation XXX.

Section III - Supplemental Identification of Specific Requirements

Complete this section only if there is a specific requirement (i.e., rule reference, test method, or MRR requirement) that is:

1. Listed for a specific type of equipment or process in Section II of this form & **DOES NOT** pertain to a specific device at your facility*; OR,
2. Is **NOT** Listed for a specific type of equipment or process in Section II of this form but it **IS** applicable to a specific device at your facility.

NOTES:

1. For any specific requirement, test method, or MRR requirement that is identified as "Remove," attach additional sheets to explain the reasons why the specific requirement does not pertain to the device listed.
2. All boxes that are checked in Section II and any additional requirements identified in this section as "Add" will be used to determine the facility's compliance status. This information will be used to verify the certification statements made on Form 500-A2.
3. Do not use this section to identify equipment that is exempt from specific rule requirements. Your equipment is automatically considered to be in compliance with the rule that specifically exempts the equipment from those requirements.
4. Listing any requirement that does not apply to a specific piece of equipment in this section will not provide the facility with a permit shield unless one is specifically requested by completing Form 500-D and approved by the AQMD.

* If this section is completed as part of the initial Title V application & there is no device number assigned, refer to the existing permit or application number in this column.

ARCO CQC Kiln (#47232)
Initial Title V Application (July 1997)

Section III - Supplemental Identification of Specific Requirements

The following table summarizes specific requirements, test methods, and MRR requirements which are to be removed from the facilities list of Title V Permit Applicable Requirements(Section II):

Device #	Specific Requirement, Test Method, or MRR Requirement	Justification
Permit	Rule 477 ✓	This rule applies to the operation of coke ovens. ARCO CQC Kiln is a petroleum calciner and does not operate any coke ovens. The test method and MRR requirement are also non-applicable.
Permit	Rule 1119 ✓	This Rule applies an 80 % removal efficiency for sulfur dioxide emissions from calciners. ARCO CQC Kiln is a RECLAIM facility. Therefore, there is no SCAQMD cap or limit on sulfur dioxide emissions within the facilities allocation or covered by purchased RTC's. The test method and MRR requirement are also non-applicable.
Permit	40 CFR SUBPART L ✓	This regulation applies to mineral calciners. ARCO CQC Kiln only processes petroleum coke. The test method and MRR requirement are not applicable.
Permit	40 CFR Accidental Release ✓	At present, this regulation does not apply to ARCO CQC Kiln. The facility does not store or use a listed substance per 40 CFR 68.10(a). The test method and MRR requirement for this rule are also non-applicable.
Permit	40 CFR 82-Protection of Stratospheric Ozone- SUBPART A-Production and Consumption Controls ✓	This subpart covers importing and manufacturing of Ozone Depleting Substances (ODS). The kiln does not manufacture, import, or order manufacturing or import of ODS.
	SUBPART B-Servicing of Motor Vehicle Air Conditioners ✓	ARCO CQC Kiln does not service any vehicles with CFC systems. The test method and MRR requirement for this rule are also non-applicable.
	SUBPART E-Labeling of Products Using Ozone Depleting Substances ✓	This regulation applies to manufacturers and packagers of Ozone Depleting Substances or Products made with ODS. The test method and MRR requirement for this rule are also non-applicable.

	SUBPART F-Recycling and Emissions Reduction	This subpart applies to any person servicing, maintaining, or repairing air conditioning (other than motor vehicles) and refrigeration units. The servicing of comfort air conditioners is performed by licensed contractors who are certified per Rule SCAQMD Rule 1415. The test method and MRR requirement for this rule are also non-applicable.
Permit	SUBPART - G - Significant New Alternatives Policy Program	These regulations deal with producers of substitute ODS's. ARCO CQC Kiln is not a producer of substitute ODS's.
Permit	Test Method 1113(e)	This test method is a manufacturer's specification for architectural coatings. ARCO CQC is not a manufacturer of architectural coatings.
Permit	Rule 1171	This rule, test method and MRR requirement is not applicable to solvent usage at ARCO CQC Kiln. The applicable requirement is Rule 1122.
Permit	40 CFR SUBPART T	This rule, test method, and MRR requirement are non-applicable as the Safety-Kleen solvent sink used in the maintenance department uses a solvent which is non-halogenated.
081,082	40 CFR 63 SUBPART F	This regulation, test method and MRR requirement is a NESHAP for Organic Hazardous Air Pollutants from the Synthetic Organic Chemical Manufacturing Industry. ARCO CQC Kiln is a petroleum calciner not associated with this industry.
081,082	40 CFR 63 SUBPART G	This regulation is a NESHAP for Organic Hazardous Air Pollutants from the Synthetic Organic Chemical Manufacturing Industry Process Vents, Storage Vessels, Transfer Operations, and Wastewater. ARCO CQC Kiln is a petroleum calciner not associated with this industry.
081,082	40 CFR 63 SUBPART H	This regulation, test method, and MRR requirement apply to National Emission Standards for Organic Hazardous Air Pollutants for Equipment Leaks. Calcined coke is not a listed SOCOMI process, nor is ARCO CQC Kiln within the applicable industry.
081,082	40 CFR 63 SUBPART I	This regulation, test method, and MRR requirement apply to National Emission Standards for Organic Hazardous Air Pollutants for Certain Processes Subject to the Negotiated Regulation for equipment leaks. Calcined coke is not a listed SOCOMI process, nor is ARCO CQC Kiln within the applicable industry.

081,082	40 CFR 63 SUBPART R	This regulation, test method, and MRR requirement applies to National Emissions Standards for gasoline distribution facilities. ARCO CQC Kiln is a petroleum coke calciner and is not a bulk gasoline terminal or pipeline breakout station.
081,082	40 CFR 63 SUBPART CC	This regulation, test method, and MRR requirement applies to a refinery. ARCO CQC Kiln is a petroleum calciner which is not located within a refinery.

Section IV - SIP-Approved Rules That Are Not The Most Current AQMD Rules

Check off each SIP-Approved Rule as it applies to the facility. Use the blanks at the end of this form to fill-in new items.

**Title V
Instructions for
Form 500-C2**

Non-Compliant Operations Report and Compliance Plan

To complete this application, type or print the information in the appropriate blanks.

Complete this form for any equipment not operating in compliance with federally-enforceable, applicable requirements or will not be in compliance when the Title V permit is issued. A separate Form 500-C2 should be completed for each process or system that is not operating in compliance with all applicable requirements. Attach all completed Forms 500-C2 to Form 500-C1.

Facility ID: Complete only if your facility has been issued an identification or ID number by the AQMD. If not, leave these boxes blank. An ID number will be assigned when the application is submitted.

Revision: Check this box if this submittal is a revision to a previous report.

Section I - Non-Compliant Operations Report

Device or Application No.: For RECLAIM facilities, the device number information can be found in the permit under Section D: Facility Description and Equipment Specific Conditions. Non-RECLAIM facilities shall refer to the existing application number. In the event that there are no numbers assigned to a device because of an addition or modification to a facility, indicate this in the appropriate spaces provided on the form by inserting the word "new." Upon application approval, the AQMD will assign these numbers and, subsequently, they will be added to the permit for future reference.

Applicable Requirement: Cite the rule number and section and the date of the rule version (e.g., Rule 1130 (b)(5), 08/02/91), or the permit condition with which the device currently is not in compliance.

Describe Non-Compliant Operations: For each device that is identified as not operating in compliance according to applicable requirements, describe in detail the circumstances and parameters of the non-compliance. Attach additional sheets as needed.

Variance or Alternative Operating Condition Case Number: Provide the case number and attach a copy of any active variance or alternative operating condition granted by the AQMD Hearing Board for the non-compliant equipment.

Section II - Compliance Plan

A compliance plan is required for any device that is expected to not be operating in compliance when the Title V permit is scheduled to be issued. Provide a detailed schedule of compliance including remedial measures (including an enforceable sequence of actions with milestones) leading to compliance. This compliance schedule should resemble, and is at least as stringent as, that contained in any judicial consent decree or administrative order to which your facility is subject.

Describe How Compliance Will Be Achieved: Describe in detail all remedial measures that the facility will take to bring the equipment into compliance. Attach additional sheets as needed.

Compliance Schedule: List each remedial measure and milestone and the date when the action is to be completed, in chronological order.

Section III - Progress Report Schedule

Provide a schedule of due dates for progress reports beginning after the scheduled date that the Title V permit will be issued. The frequency of reporting must be at least every six months.

Title V
Form 500-C2

SOUTI FOAST AIR QUALITY MAN, EMENT DISTRICT
Non-Compliant Operations Report and Compliance Plan

Facility Name: ARCO CQC KILN Date: 7/24/97 Revision: Facility ID (6-Digit): 047232

Section I - Non-Compliant Operations Report		
Device or Application Number	Applicable Requirement* (Rule or Permit Condition Number)	Variance or Alternative Operating Condition Case Number (Attach copy of document.)
D67	2011(c)(3)(A) 2012(c)(3)(A)	
	The SCAQMD has taken the position stated in two letters to the kiln that the RECLAIM facility is not in compliance with Rule 2011(c)(3)(A) and 2012(c)(3)(A). Specifically, the District's position is that the kiln and pyroscrubber are both major sources, therefore NOX and SOX emissions for each piece of equipment should be reported separately. ARCO CQC Kiln believes it is in compliance with these applicable requirements as the RECLAIM emissions for these sources are released through a single stack, analyzed by certified CEMS, and reported via RTU to the District.	

*Only list the applicable requirement with which the operation is not in compliance.

Section II - Compliance Plan		
Describe How Compliance Will Be Achieved	Compliance Schedule	
	Date (mo/day/yr)	Remedial Measures & Milestones
ARCO CQC Kiln is in discussion with District Staff on the methodology for separately reporting the major source emissions specified in the above applicable requirements.		To be determined.

Section III - Progress Report Schedule

1. Certified progress reports will be submitted according to the following schedule (Check a or b and complete c.):

a. Semi-annually b. More frequently as specified c. Submittal dates: 1) _____ (mo/day/yr) 2) _____ (mo/day/yr) 3) _____ (mo/day/yr) 4) _____ (mo/day/yr)
