Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Northrop Grumman Corp. (ID 18294) has proposed to revise their Title V permit by replacing a boiler (D36) with a new, functionally identical boiler with a low NOx burner (D232). This is an aerospace manufacturer (SIC 3721) located at 500-800 N. Douglas St, El Segundo, CA 90245. This proposed permit revision is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on October 7th.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

A handwritten signature in black ink that reads "Ed Muehlbacher for".
