Dear Mr. Rios:

The Boeing Company – C17 Program (formerly Douglas Products Division; ID 800038) has proposed to revise their Title V permit by changing permit conditions on three existing boilers at their Long Beach facility. This is an aircraft manufacturing facility (SIC 3721) located at 2401 E. Wardlow Road, Long Beach, CA 90807. This proposed permit revision under Application No. 491817 is considered as a “de minimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on March 7, 2012.

If you have any questions or need additional information regarding the proposed permit revision, please call Stacey Ebiner at (909) 396-2504.

Very truly yours,
