This facility is a petroleum marine loading/unloading terminal. The facility was constructed in 1980 to receive and store petroleum products from ships or pipeline, and to ship products from the terminal via pipeline and ship loading systems. The plant is currently owned and operated by Tesoro Logistics Marine Terminal 2 Facility ID 176377 after the change of ownership from Tesoro Refining & Marketing, Marine Terminal 2 on June 1, 2013. The facility operates 3 marine bulk loading / unloading systems, several storage tanks, 2 emergency internal combustion engines for fire protection, a flare, and an afterburner.

Pursuant to Title V of the federal Clean Air Act and AQMD Rule 3004(f), a Title V permit shall expire five years from the date of issuance, unless such permit has been renewed. Accordingly, the above facility has submitted a Title V renewal application and requested that AQMD renew their Title V permit. The proposed permit incorporates updates to the facility information, as provided in the facility's Title V renewal application, as well as updates to all rules and regulations that are currently applicable to the facility. The proposed permit also incorporates minor changes to the permit to operate conditions. The changes are to correct spelling errors and to update some permit conditions.

As required by Title V of the Federal Clean Air Act, Title V permits include all of the emission limits, applicable requirements and operating conditions imposed on the equipment. Title V facilities are required to certify compliance with the Title V

permits in addition to recordkeeping and mandatory reporting of any deviation from the permit conditions.

The proposed permit is available for public review at AQMD, 21865 Copley Dr., Diamond Bar, CA 91765 and at the Long Beach Main Library, 101 Pacific Avenue, Long Beach, CA 90822. The proposed permit can also be viewed at <http://www3.aqmd.gov/webappl/publicnotices2/> by entering the facility's ID number. Information regarding the facility owner's compliance history submitted to the AQMD pursuant to California Health & Safety Code Section 42336, or otherwise known to the AQMD based on credible information, is also available from the AQMD for public review. **Anyone wishing to comment on the issuance of the proposed permit should submit their comments in writing by October 10, 2014. Written comments should be submitted to:**
