Ms. Deborah Jordan  
Director, Air Management Division  
United States Environmental Protection Agency  
75 Hawthorne Street  
San Francisco, CA 94105

Re: Revision of Synthetic Minor Permit for Facility A0255,  
Lawrence Livermore National Laboratory

Dear Ms. Jordan:

The purpose of this letter is to issue a revision of the synthetic minor permit for the facility above.

Per the facility's request, the facility-wide emission limits for NOx and POC have been changed from 95 tons per year to less than 35 tons per year, on a pollutant specific basis.

The revision is effective as of the date of this letter. The synthetic minor permit evaluation and conditions are attached.

The District will also notify the California Air Resources Board and the facility in writing of these permit actions.

If you have any questions regarding this matter, please call Jim Karas, Air Quality Engineering Manager, at (415) 749-4742.

Sincerely yours,  
Jack P. Broadbent  
Executive Officer/APCO
