**NOTICE OF PROPOSED ACTION**

NOTICE IS HEREBY GIVEN that the Clark County Department of Air Quality and Environmental Management (DAQEM) is requesting public comment on the proposed issuance of a Title V (Part 70) Operating Permit for Lasco Bathware (Source 00075) located at 201 N. Meadow Valley Road, Moapa Valley, Nevada 89025 (Hydrographic Area 218). Hydrographic Area 218 (California Wash) is designated as unclassified non-attainment area for 8-hour ozone (regulated through NO<sub>x</sub> and VOC) and is Prevention of Significant Deterioration (PSD) area for PM<sub>10</sub>, CO and SO<sub>x</sub>. The proposed Part 70 Operating Permit is based on the Title V Renewal application submitted on December 29, 2006.

Lasco is engaged in bathware manufacturing operations. It is a major source for Hazardous Air Pollutants (HAP). Bathware fixtures at Lasco are produced in continuous assembly lines by laminating a mixture of thermosetting plastic resin and other inert materials onto a bathware mold. The finished products are often referred to as Fiber Reinforced Polyester (FRP). The source is required to meet 95 percent overall reduction of HAP emissions based on the Maximum Achievable Control Technology (MACT) standards under 40 CFR 63 Subpart WWWW- National Emission Standards for Hazardous Air Pollutants: Reinforced Composites Production. The source meets the requirements by using rotary preconcentrators and Regenerative Thermal Oxidizer (RTO) as add-on control devices.

This notice announces the 30-day public comment period, commencing Monday, November 10, 2008, ending on Tuesday December 9, 2008 and is being issued pursuant to Nevada Revised Statute 445 and the AQR.

The maximum Potential to Emit (PTE) of regulated air pollutants due to the operation of this source are shown in the table below:

	PM <sub>10</sub>	NO <sub>x</sub>	CO	SO <sub>x</sub>	VOC	HAP
<b>Source Potential to Emit (PTE) Tons per year</b>	<b>0.50</b>	<b>6.83</b>	<b>2.61</b>	<b>0.07</b>	<b>49.21</b>	<b>45.66</b>

The technical support document (TSD), which describes the process, discusses compliance with relevant regulations, presents emission calculations, air quality impacts, and the proposed permit are available for public inspection at DAQEM, 500 S. Grand Central Parkway, Las Vegas, Nevada 89155, telephone (702) 455-5942 or the Clark County website: [www.accessclarkcounty.com/air\\_quality/permitting/public\\_notices](http://www.accessclarkcounty.com/air_quality/permitting/public_notices). The TSD, and the proposed permit with enforceable conditions, will be mailed to interested persons upon request. Additional documentation may be requested by contacting Tina Gingras, Assistant Director, DAQEM or Richard D. Beckstead, Permitting Manager, DAQEM. Any fees associated with this request will be billed at a cost consistent with DAQEM policy and NRS 239..

Any person may submit written or oral comments to the Control Officer at the address given above. All comments must be received by Tuesday, December 9, 2008 at 5:00 p.m., the close of this 30-day notice. The written comments will be retained and considered prior to the final determination by the Control Officer. A public hearing will be held on the proposed issuance of this permit if a request is made during the public comment period.

Published on the 9<sup>th</sup> day of November 2008.

Richard D. Beckstead  
Permitting Manager

Tina Gingras  
Assistant Director
