Re: **Cypress Amloc Land Co., Inc. – Facility # A1364**

Dear Ms. Jordan:

The District has reopened the following Major Facility Review (MFR) Permit:

Application	Facility #	Facility Name	Address, City	Type of Operation
10392	A1364	Cypress Amloc Land Co., Inc.	1 Sand Hill Road Colma, CA 94014	Wood Waste and Construction

The purpose of this reopening is to add the requirements related to the NESHAP for Municipal Solid Waste Landfills (40 CFR 63, Subpart AAAA) that was promulgated on January 16, 2003. Reopening this permit is required by Regulation 2, Rule 6 and by EPA's Title V regulations, because the expiration date for the permit is more than three years from the date of promulgation of the standard. The following specific changes are proposed pursuant to the reopening action:

- Add NESHAP General Provisions and MSW Landfill requirements to Tables IV-A and VII-A.
- Revise Condition # 16884 and Table IV-A by adding Part 19, which requires semi-annual reports pursuant to the new NESHAP requirements and allows these reports to be combined with the Title V semi-annual monitoring reports.

The District is also proposing administrative amendments and minor revisions to this permit in order to update citations and dates based on SIP approvals and other regulatory changes, correct errors, and clarify language. The details are in the permit evaluation/statement of basis.

None of the proposed revisions will result in any emission changes at this facility. All changes to the permit are clearly shown in strikeout/underline format.

The final permit will address public and EPA comments on this preliminary decision. The notice inviting written public comments will be published in the San Mateo Times. The final date for comments is October 22, 2004.
