

Joe,

This constitutes a withdrawal of the currently pending proposed final Title V permit V20602.000.

This withdrawal conforms to our prior discussions about this pending permit.

The withdrawal will allow for an orderly resolution of various PSD-related issues.

I have discussed this with Dave Lima with Hexcel, and the attached e-mail reflects Hexcel's concurrence in this withdrawal.

Based on my discussion with Mr. Lima, I expect that we should be able to re-submit a proposed final permit within 60 days.

Thank you

Don Gabrielson

Permit Withdrawal

**Subject**

:

Barbara - in accordance with recent conversations you have had with Hexcel, we agree that draft Title V permit should be withdrawn from EPA's consideration to give EPA and PCAQCD and Hexcel opportunity to discuss the outstanding issues.

Dave
