Dear Ms. DiRocco:

Enclosed are the revised Title Page, Table of Contents, and Section D of your Title V Facility Permit for the Arco Terminal Services Corp.'s Terminal 2 located at 1300 Pier B Street, Long Beach, CA. The revised permit reflects the following changes:

543960	G22093	Change of Conditions for Thermal Oxidizer serving marine berths by: 1. Changing source test frequency 2. Clarifying source test criteria 3. Expanding Parameter Monitoring requirements

This revision is considered a "minor permit revision" to the Title V permit. The proposed permit was submitted to the EPA for review on November 16, 2012. Expedited review was requested and EPA concluded their review on December 17, 2012 with no comments on the proposed revision.

In addition the following administrative changes have been made to Permit No. G22093:

Please review the attached sections carefully. Insert the enclosed sections into your Title V Facility Permit and discard the earlier version.

The operation of your facility is bound by the conditions and/or requirements stated in the facility Permit to Operate. If you determine there are administrative errors, or if you have any questions, please contact Mr. Thomas Liebel, Senior A.Q.
