Re: Proposed Initial Title V Permit for Bowerman Power LFG, LLC, Facility ID# 157152

Dear Mr. Rios:

Enclosed for your 45-day review is the proposed initial Title V Permit for the Bowerman Power LFG, LLC (Facility ID 157152), to be located at 11002 Bee Canyon Access Road, Irvine, Ca. The proposed landfill gas to energy (LFGTE) project will be at an existing municipal solids waste landfill facility (Frank R. Bowerman Landfill).

The South Coast Air Quality Management District (AQMD) has received applications for Permits to Construct and Operate from Bowerman Power LFG, LLC, for the equipment described in the enclosed notice. Pursuant to AQMD Rule 212 - Standards for Approving Permits and Issuing Public Notice, subdivision (g), new or modified sources exceeding any of the specified daily maximums are subject to the public notification and comment provisions of 40 CFR Part 51, Section 51.161(b), and 40 CFR Part 124, Section 124.10. In addition, pursuant to AQMD Rule 3006, Public Participation, a public notice is required prior to the issuance of Title V permit. The public notice requirements for Rule 212 and Rule 3006 have been combined into one notice to be conducted simultaneously.

We are enclosing the proposed initial Title V permit, the permit applications, evaluations, and a copy of the public notice in accordance with both Rules 3006 and Rule 212(g). The public notice is being published in a newspaper of general circulation in the vicinity of this facility. This notice is also being distributed to each address within ¼ mile radius of the property line of the facility and is being sent to the California Air Resources Board, the Southern California Association of Governments (SCAG), the County of Orange, the City of Irvine, and the State and Federal Land Managers.

This request is being made via electronic submittal in order to facilitate your review. If you have any questions or need additional information, please contact Mr. Gaurang Rawal at (909) 396-2543 or by email at [grawal@aqmd.gov](mailto:grawal@aqmd.gov).

Very truly yours,

Jay Chen, P.E.  
Senior Engineering Manager  
Refinery & Waste Management Permitting
