NOTICE OF PROPOSED TITLE V PERMIT AND PUBLIC CONSULTATION MEETING

The South Coast Air Quality Management District (AQMD) is hereby giving notice of its intent to issue the initial Title V permit pursuant to Regulation XXX – Title V Permits and conduct a public consultation meeting on the proposed permit for the following existing facility:

ConocoPhillips Wilmington Refinery

(Facility ID 800363)

1660 W Anaheim St.

Wilmington, CA 90744

Facility Contact Person: Kristin Wisdom

This petroleum refinery, along with ConocoPhillips' other refinery located in Carson, processes intermediate crude oil products into final products such as gasoline, diesel, jet fuel, and other derivatives. The intermediate products are delivered via pipeline from the Carson Refinery for further processing at the Wilmington Refinery. The processes at the Wilmington Refinery include catalytic cracking, isomerization, reforming, alkylation, hydrogen production, hydrotreating, blending, storage, sulfur recovery, flares, and wastewater treatment. The subject of this proposed action covers only the Wilmington Refinery. A separate Title V permit for the Carson Refinery was proposed for public and EPA review on June 6, 2008.

Pursuant to Title V of the federal Clean Air Act, AQMD is proposing to reissue the existing permit for this facility in the form of a Title V permit meeting the requirements of AQMD's Regulation XXX and the Federal Clean Air Act. The Title V permit will contain emission limits and operating conditions from the existing permit issued to the facility by the AQMD. Furthermore, the new Title V permit will also include additional monitoring, reporting and recordkeeping requirements, including mandatory reporting of any violations of permit conditions and annual certifications by the responsible officials that the facility is operating in compliance with permit terms and conditions.
