**Re: Nevada Division of Environmental Protection – Bureau of Air Pollution Control (BAPC)
Response to Comments on the Draft Revised/Renewal of Air Quality Operating Permit
#AP4911-0756.02 for Terra-Gen Dixie Valley; FIN A0376**

Dear Mr. Rios:

The BAPC received an email request from Omer Shalev on October 30, 2012 requesting the Engineering Evaluation (Technical Review) to be submitted electronically for the Draft Operating Permit #AP4911-0756.02. BAPC staff responded via email on October 31, 2012 and provided a PDF draft version of the Technical Review. It was recently discovered that the incorrect version of the Technical Review, dated July 25, 2012, was provided to EPA by mistake. Please find enclosed the correct version of the Technical Review, dated October 2012.

Additionally, on November 13, 2012 the BAPC received email comments on the Draft Operating Permit #AP4911-0756.02. The BAPC plans on formally responding to these comments. The BAPC also respectfully requests that in the future EPA Region 9 provide comments formally in a letter.

If you have any questions, please feel free to contact me at (775) 687-9475.

Sincerely,

Jeffrey Kinder, P.E.
Supervisor, Permitting Branch
Bureau of Air Pollution Control
