75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Rios:

Proposed De Minimus Revision to Title V Permit for Riverside Co., Waste Management. Dept. Lamb Canyon Landfill (ID# 15793)

Enclosed for your 45-day review is the proposed revision to the Title V Permit, as described below, for Riverside County, Waste Resources Mgmt. Dist. Lamb Canyon located at 16411 Lamb Canyon Rd., Highway 79, Beaumont, CA. This revision is considered a “de minimus significant permit revision”, and a public notice is not required.

We are enclosing the revised permit, as shown below, and the engineering evaluation.

Previous Appl. No.	New Appl. No.	Description
391030 (Section H)	500899 (Section D)	Flare, Enclosed Landfill Gas (Increase landfill gas flow and heat input)

The equipment was described under Section H (Permits to Construct) of the Initial Title V Permit for this facility that was issued on September 9, 2008. Since then, the facility has requested a modification to existing equipment and has filed an application as described above. The modification to the flare will result in an emissions increase and will continue to comply with all regulations and requirements. A Permit to Operate will be issued upon completion of this review period.

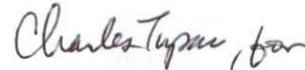

Mr. G. Rios
Riv. Co. Waste - Lamb
COID 15793
