Mr. Gerardo Rios
Chief – Permits Office
U. S. EPA, Region IX
75 Hawthorne Street, Air 3
San Francisco, CA 94105

Dear Mr. Rios:

Rexam Beverage Can Company (ID 052517) has proposed to revise their Title V permit by installing a regenerative thermal oxidizer (RTO) (C76) to replace two existing thermal oxidizers (C22 & C23), modify five ovens (D6, D14, D19, D21 & D48), one spray station (D20), one overvarnish applicator (D18, D79 & C71) and one baghouse (C55) to vent to the new RTO, and change permit conditions on two internal combustion engines (D43 & D44). This is a beverage can manufacturing facility (SIC 3411) located at 20730 Prairie Street, Chatsworth, CA 91311. This proposed permit revision as requested under Application Number 498292 is considered as a “deminimis significant permit revision” to their Title V permit. Attached for your review are the permit evaluation and draft permit for the proposed permit revision. With your receipt of the proposed Title V permit revision today, we will note that the EPA 45-day review period will begin on September 17th.

If you have any questions or need additional information regarding the proposed permit revision, please call Ed Muehlbacher at (909) 396-2703.

Very truly yours,

A handwritten signature in black ink that reads "Ed Muehlbacher for".
