EPA is not delegating Emission Guidelines; Municipal Waste Combustors under the Clean Air Act of 1990 (NSPS Subparts Ca and Cb). If you wish to regulate these sources you should develop a regulation and then submit it for incorporation into the State Implementation Plan, as part of the normal submittal process.

Acceptance of this delegation constitutes your agreement to follow all applicable provisions of 40 CFR Parts 60 and 61, including use of EPA's test methods and procedures. As of the effective date of this delegation, Nevada Department of Conservation and Natural Resources will have primary authority to enforce the above standards. EPA will retain independent enforcement authority, and will exercise such authority in a manner consistent with EPA's timely and appropriate guidance, and our enforcement agreement. As such, all notifications and reports required of sources by the above standards should be sent to you, with a copy to our office. The delegation is effective upon the date of this letter unless the USEPA receives written notice from you of any objections within 10 days of receipt of this letter. A notice of this delegated authority will be published in the Federal Register in the near future.

Sincerely,

Daniel W. McGovern
Regional Administrator
