

# Vapor Intrusion Pathway? Let's investigate!

# Map of Vapor Intrusion Study Area

# Next Steps/October 2010

- EPA and Freescale signed Administrative Order on Consent (AOC) and a Statement of Work (SOW) for Soil Gas and Vapor Intrusion to Indoor Air Pathway Evaluation on Aug 31, 2010
- Freescale will submit Draft Soil Gas Sampling Work Plan by Sept 30, 2010
- Community members will be able to review and comment on the Draft Work Plan after EPA review/revisions

# Next Steps, continued

- A special OU1 CIG meetings will be held to go over draft work plan to make sure everyone is comfortable with the sampling locations and process for collecting the samples.
- Two rounds of soil gas sampling will be conducted. Samples will be collected in the public right- of- way, beneath pavement and as close as possible to homes/schools.
- Soil gas sample results will be compared to health-based screening levels to determine if indoor air sampling is needed.
