

EPA Open House Meeting

U.S. Environmental Protection Agency (EPA) • Region 9 • San Francisco, California • April 2014

You are invited to an EPA interactive open house meeting!

This will include a demonstration of the EPA mobile lab, a poster session, and an update presentation of the groundwater and air sampling activities in the neighborhood.

Figure 1: EPA's Trace Atmospheric Gas Analyzer (TAGA)

Wednesday, May 7, 2014

5:30 PM to 8:30 PM

**German International School of Silicon Valley
310 Easy Street in Mountain View**

EPA Informational Poster Session/Mobile Lab Demonstration:

5:30 PM to 7:00 PM

The poster session will provide you with one-on-one interactions with EPA staff to learn more about:

- EPA's real time air sampling and mobile lab, a powerful tool that allows us to make in the field decisions
- Trichloroethene (TCE) in air and potential health concerns
- TCE groundwater contamination and how it is being cleaned up (In Situ Chemical Oxidation)
- Vapor intrusion and EPA's indoor air investigation
- Air and soil gas sampling equipment (hands-on)
- Recent sampling activities and next steps

**Please Join us
anytime during
The Open House**

EPA Update Presentation/ Q&A Session:

7:00 PM to 8:00 PM

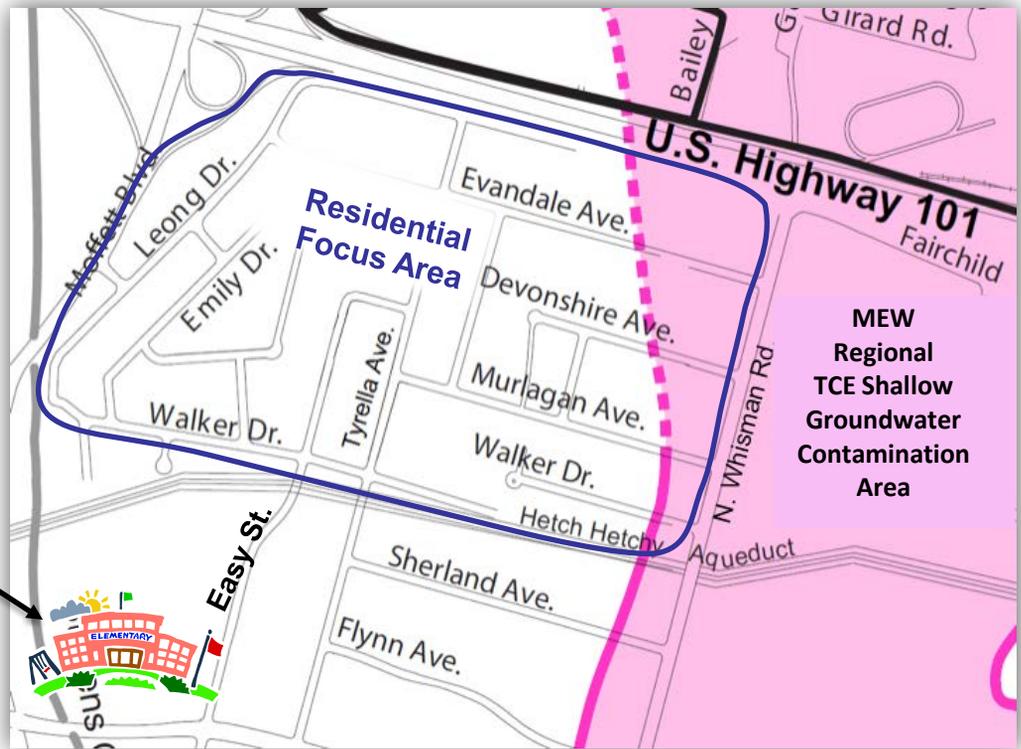

EPA will update the community on recent field work efforts and upcoming TCE groundwater and air sampling.

Poster Session Continued:

8:00 PM to 8:30 PM

Don't miss this opportunity to ask questions and get informed!
