

Agenda August 31, 2015
Torrance Cultural Arts Center
3330 Civic Center Drive, Torrance, CA 90503
Garden Room A
10:30 – 3:00

Meeting goals:

To discuss: the data from the indoor air vapor intrusion sampling; outreach to the greater community; and next steps on the ongoing vapor intrusion investigation.

- 10:30** **Introductions and Welcome**
- 10:45** **How does the data speak to you?** 5 minutes per group represented: EPA, DTSC, DAAC, etc. to express what the vapor intrusion data means to you.
- 11:40** **Summarize the indoor air vapor intrusion sampling process.** Summarize the investigation: process and goals for sampling, number of houses sampled, sub slab/crawlspace samples
Summarize the data from the indoor air vapor intrusion sampling. Describe Regional Screening Levels (RSLs) and California screening levels and summarize the data (by contaminant). Discuss the data.
Describe the South Coast Air Quality Management District (AQMD) ambient air sampling. Summarize AQMD's approach to sampling the air in Harbor Gateway Neighborhood.
- 12:00** **LUNCH Provided by DAAC – Donations will be accepted**
- 12:30** **Brainstorm outreach to the larger community.** Summarize timeline for outreach to participants. Discuss the best strategy to reach out to the greater community about the results of the VI investigation.
- 1:00** **Discuss the resample strategy.** What is best strategy for resampling indoor air and crawl spaces in homes.
- 1:30** **Break**
- 1:40** **Discuss the next steps of the ongoing vapor intrusion investigation.** Summarize suggested next steps. Discuss the best strategy for the ongoing vapor intrusion investigation.
- 2:45** **Wrap up and next meeting date**
- 3:00** **Adjourn**

EPA Materials to support the discussion sent out in advance:

- PDF of data
- PDF of three maps
- PDF of summary statistics
- PDF of "levels of concern/comparison values" table
