Groundwater Treatment System

Del Amo/Montrose Dual Site Groundwater (OU3G) Groundwater Treatment System

The image shows a complex industrial water treatment system housed in a metal frame. It features several large horizontal cylindrical tanks, a network of stainless steel pipes with various valves and gauges, and several blue electric motors. A large grey electrical control cabinet is mounted on the frame. In the foreground, a yellow bucket is visible. The background shows a fenced outdoor area under a corrugated metal roof.
