

# Ex Situ Treatment of Hexavalent Chromium (Treatment Above Ground)

## Reduction – Coagulation – Filtration (RCF) Process

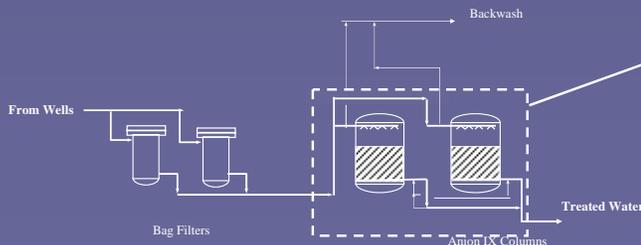

**Microfilter System**

## Reverse Osmosis Process

**Reverse Osmosis System**

## Weak Base Anion Resin Ion Exchange Process

**Ion Exchange System**

### Other Plausible Process Technologies:

1. Strong Base Anion Ion Exchange with Brine Regeneration
2. Weak Base Anion Ion Exchange with Caustic/Acid Regeneration
3. Land Application
4. Electro Coagulation with Filtration
