

## Non-Time-Critical Removal (NTCR) Documents

**Relevant Factor for selecting NTCR: “High levels of hazardous substances or pollutants or contaminants in soils largely at or near the surface that may pose a threat of release”.**

### EE/CA Approval Memorandum

- Secures management and funding approval to conduct the EE/CA
- Documents that NCP criteria for initiating a NTCR are met
- **Provides a finding of an actual or threatened release from the site**
- Provides general information; threats to public health, welfare, enforcement activities and estimated EE/CA costs

### Engineering Analysis/Cost Analysis (EE/CA)

- Satisfies environmental review and administrative record requirements
- Provides framework for evaluating and selecting alternative technologies
- Identifies scope and objectives of the removal action (\$6 million limit/12 month timeframe)
- Analyzes the **effectiveness, implementability and cost** of various alternatives
- Recommends removal action alternative

### Action Memorandum

- Documents selected removal action

# Proposed AMCO Non-Time-Critical Removal Action Source Area VOCs 2014 – 2016
