

PARCEL 7351-033-026

Parcel 7351-033-026 is located in the southwestern corner of the former Butadiene Plancor. Butadiene was manufactured within the plancor as a component of synthetic rubber. The parcel area was used for storage of fuel oil. An underground benzene pipeline was located on or near the northern boundary of the parcel. Leakage from the benzene pipeline during the operation period of the plancor is believed to have resulted in benzene contaminated soil and groundwater in an area to the east of the parcel. Plancor facilities identified in the parcel area are as follows:

- Two aboveground tanks used for storage of fuel oil; and
- Two railroad spurs.
