

### **PARCEL 7351-034-021**

Parcel 7351-034-021 is located near the southeastern corner of the former Copolymer Plancor. Butadiene and styrene were polymerized to produce synthetic rubber in the Copolymer Plancor during its period of operation. Former plancor facilities identified within parcel 7351-034-021 are as follows:

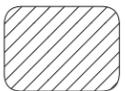

- A portion of a building used for storage of manufactured rubber; and
- Underground pipelines used for transport of wastewater.

**LOCATION MAP**  
**Parcel 7351-034-021**

**Legend**

-  Soil gas sampling location
-  Parcel boundary
-  Cooling Tower #3
-  Acetone / Acetonitrile
-  Approximate location of former underground pipelines with a potential to have transported VOC-containing fluids
-  Approximate former location of persistent soil staining
