Good morning, Wes,

Thank you for submitting the revised O&M plan for residential VI mitigation work at the Triple Site. Please prepare a response to the following comments and submit to EPA for review and approval by Thursday, May 12th:

1. Page 1, First paragraph

The text refers to the Mitigation Plan dated December 21, 2015. Please revise the text to refer to the version submitted with this O&M plan, or otherwise the most recent version of the Mitigation Plan.

2. Page 1, Components of the Mitigation System

The text should be revised to clarify the difference between a system layout and an as-built drawing.

Regards,

Melanie Morash

 J. Wesley Hawthorne <hawthornej@locustec.com>
