

# Potential Sources of Contamination

## Legend

-  Former AMCO Chemical Facility boundary
-  Deteriorated drums were located throughout the facility. Source: EPA 2007
-  Scrap metal/auto operations
-  Past recurring chemical spills
-  Aboveground Storage Tank (AST) location
-  Approximate Underground Storage Tank (UST) location
-  Approximate boundary of salvage yard
-  Structures that are no longer present
-  Railroad and tanker cars

*\* Not a confirmed contributor to the AMCO site contamination*

← **Port of Oakland**  
 approximately 1.5 miles away

**880 Freeway**
