**RE: Remedial Action Completion Notification and Certification
Perimeter Groundwater Operable Unit (OU-5), Site C41
Aerojet-General Superfund Site, Sacramento County**

Dear Mr. Mayer:

Aerojet is pleased to notify U. S. Environmental Protection Agency (EPA) of the completion of field activities associated with the removal of perchlorate impacted soil from Site C41. Pursuant to Paragraph 71 of the Unilateral Administrative Order (UAO) No. 9-2011-17, attached is the Remedial Action Completion Certification for the Site C41 project. The Remedial Action Report will be submitted within 30 days of the inspection of Site C41 by EPA.

I can be reached at (916) 355-5814 if you have any questions regarding this transmittal.

Sincerely,

A handwritten signature in blue ink that reads "Craig Fegan". The signature is written in a cursive, flowing style.

Craig Fegan

RE: **Remedial Action Completion Certification**
Perimeter Groundwater Operable Unit (OU-5), Site C41
Aerojet-General Superfund Site, Sacramento County

Dear Mr. Fegan:

This letter serves as independent certification that the remedial action activities for Site C41 of the Perimeter Groundwater Operable Unit (OU-5) have been completed. This certification is required by Paragraph 71 of the Unilateral Administrative Order for the Performance of Remedial Design and Final Remedial Action for Soil, United State Environmental Protection Agency – Region IX (EPA), U.S. EPA Docket No. 9-2011-17.

I, being familiar with the requirements of the Remedial Action Work Plan for Site C41, and having witnessed portions of the work, reviewed the surveyed extents of the excavation, reviewed the confirmation sample results, reviewed the backfill results, and discussed the final deposition of the excavated soil with you, do hereby certify that the remedial action activities at Site C41 have been duly executed and completed. I make this certification as a civil engineer, licensed within the State of California.

When the EPA or its designated representative has completed a final inspection, a Final Remedial Action Report shall be prepared and submitted to the EPA for approval. This report shall provide documentation of the remedial action activities and demonstrate that the Remedial Action Objectives for Site C41 have been met.

Please feel free to call me at (916) 863-1785 if you have any questions regarding this certification.

Sincerely,
CENTRAL VALLEY ENVIRONMENTAL, INC.

Robert S. Fagerness, PE No. C053220
Principal Engineer
