SUBJECT: Extension of Due Date for Requirement for a Work Plan for Additional Vapor Intrusion Evaluation, Synertek Building One Superfund Site, 3050 Coronado Drive, Santa Clara, Santa Clara County

Dear Mr. DeHghi:

This letter responds to your January 23, 2014, letter requesting an extension of the due date for submittal of a work plan for additional vapor intrusion investigation for the subject site. The requirement for an additional vapor intrusion investigation is contained in the Regional Water Board's December 16, 2013, letter which required submittal of a work plan by January 31, 2014.

You are requesting the opportunity to discuss the requirements for the vapor intrusion evaluation and the activities that will be necessary to prepare the work plan. A meeting between yourself, the Environmental Protection Agency, and Regional Water Board staff is scheduled for Thursday, February 6, 2014, to discuss the matter. You requested an extension of the due date for the work plan to April 14, 2014.

I hereby extend the due date for submittal of the required work plan to April 14, 2014.

If you have any questions, please contact David Barr of my staff at (510) 622-2313 [e-mail dbarr@waterboards.ca.gov].

Sincerely,

Bruce H. Wolfe
Executive Officer
