Groundwater Sampling Results (VOCs)*

Legend

- Former AMCO Chemical Facility Boundary
- Buildings
- Former Extraction Trench (dashed where estimated)
- Below SL
- From SL to 10 x SL
- From 10 x SL to 100 x SL
- From 100 x SL to 1,000 x SL
- From 1,000 x SL to 10,000 x SL
- Greater than 10,000 x SL

Colors represent the highest concentration detected.

SL = Screening Levels

* Latest available groundwater sampling results:
September 2006

Note: Gradation on the left side bar only represents groundwater and does not represent screening level concentrations.
