| <input type="checkbox"/> Bob Kemmerle/E2 | <input checked="" type="checkbox"/> Mike Lowe/SBMWD |
| | <input checked="" type="checkbox"/> Lana Kennerly/SBMWD |

Construction

- No discussion.

Well Construction

- Mark said they have an issue with fine sanding in the carbon vessels and build-up on 109. Dennis will include this in the field perimeter measurement.
- At Mark's request, Dennis will pull a sample from EW111 (depth 1040), as it seems possible that something is sitting stagnant.
- The preliminary data should be available to Mark and Bill within a week, and the final data within two weeks.
- Bill said they are currently running one pump at the Encanto booster, at somewhere between 25–2700 GPM to the baseline feeder. Lana will provide Kim an official notification on the water transfer.

General

- No conference call for the next two weeks.

Next Conference Call

Monday, 9 January 2006, 2:00 P.M., Call in #: 415-947-8520, Access Code 2332#

The minutes of this meeting represent the writer's understanding of the events as discussed. Should an attendee's understanding differ, please contact Dwayne Deutscher at 916-679-2051, or dwayne_deutscher@urscorp.com. The minutes contained herein will stand if not corrected within ten (10) days of this writing.
