

## US Census Bureau Tribal Subdivisions with Population Statistics for the Navajo Nation

**Data format:** Shapefile

**File or table name:** nn\_tribal\_sub\_w\_pop

**Coordinate system:** Geographic

**Theme keywords:** Tribal Subdivisions, Chapters, Cartographic Boundary File, 2000 US Census, Summary File 2

**Abstract:** This is a polygon shapefile for the 2000 US Census Bureau Tribal Subdivisions for the Navajo Nation Area. This is one of the Cartographic Boundary Files available from the US Census Bureau. Merged with these subdivision are population statistics from the Census 2000 Summary File 2 (SF 2) 100-Percent Data, Quick Tables. American Indian tribal subdivisions are administrative subdivisions of federally recognized American Indian reservations, off-reservation trust lands, or Oklahoma tribal statistical areas (OTSAs), known as areas, chapters, communities, or districts. These entities are internal units of self-government or administration that serve social, cultural, and/or economic purposes for the American Indians on the reservations, off-reservation trust lands, or OTSAs. The U.S. Census Bureau obtains the boundary and name information for tribal subdivisions from tribal governments. The Census Bureau first provided data for American Indian tribal subdivisions in the 1980 census when it identified them as "American Indian subreservation areas." It did not provide data for these entities in conjunction with the 1990 census. Each American Indian tribal subdivision is assigned a three-digit census code that is alphabetically in order and unique within each reservation, associated off-reservation trust land, and OTSA. Each tribal subdivision also is assigned a five-digit Federal Information Processing Standards (FIPS) code. FIPS codes are assigned alphabetically within state; the FIPS codes are different in each state for tribal subdivisions that extend into more than one state. Summary File 2 (SF 2) presents 100-percent population and housing figures for the total population. These data are shown down to the census tract level for 250 race, Hispanic or Latino, and American Indian and Alaska Native tribe categories. For data to be shown in SF 2, a population category must meet a population size threshold of 100 or more people of that specific population category in a specific geographic area.

### Description:

#### Abstract:

This is a polygon shapefile for the 2000 US Census Bureau Tribal Subdivisions for the Navajo Nation Area. This is one of the Cartographic Boundary Files available from the US Census Bureau. Merged with these subdivision are population statistics from the Census 2000 Summary File 2 (SF 2) 100-Percent Data, Quick Tables.

American Indian tribal subdivisions are administrative subdivisions of federally recognized American Indian reservations, off-reservation trust lands, or Oklahoma tribal statistical areas (OTSAs), known as areas, chapters, communities, or districts. These entities are internal units of self-government or administration that serve social, cultural, and/or economic purposes for the American Indians on the reservations, off-reservation trust lands, or OTSAs.

The U.S. Census Bureau obtains the boundary and name information for tribal subdivisions from tribal governments. The Census Bureau first provided data for American Indian tribal subdivisions in the 1980 census when it identified them as "American Indian subreservation areas." It did not provide data for these entities in conjunction with the 1990 census.

Each American Indian tribal subdivision is assigned a three-digit census code that is alphabetically in order and unique within each reservation, associated off-reservation trust land, and OTSA. Each tribal subdivision also is assigned a five-digit Federal Information Processing Standards (FIPS) code. FIPS codes are assigned alphabetically within state; the FIPS codes are different in each state for tribal subdivisions that extend into more than one state.

Summary File 2 (SF 2) presents 100-percent population and housing figures for the total population. These data are shown down to the census tract level for 250 race, Hispanic or Latino, and American Indian and Alaska Native tribe categories. For data to be shown in SF 2, a population category must meet a population size threshold of 100 or more people of that specific population category in a specific geographic area.

**Purpose:**

This dataset is intended to provide documentation of American Indian cartographic boundaries at the Tribal Subdivision (i.e. Chapter) level for the purpose of conducting and documenting the 2000 US Census. It also provides the results, in summary, of the 2000 Census by Tribal Subdivision.

**Theme keyword thesaurus:** None

**Place:**

**Place keywords:** Navajo Nation, Arizona, New Mexico, Utah, Colorado, USA, United States

**Place keyword thesaurus:** None

**Access constraints:** None

**Use constraints:**

This dataset covers the Navajo Nation by Tribal Subdivision. It was clipped from a US nationwide shapefile. The dataset is a generalized extract from the U.S. Census Bureau's TIGER database. Line simplification/smoothing was performed with a tolerance of 0.005 decimal degrees and a coordinate reduction using the Douglas-Peucker method with a tolerance of 0.0003 decimal degrees. Very small polygons were eliminated when the combination of geographic codes existed elsewhere. The data is primarily designed for small scale, thematic mapping applications at a target scale range of 1:500,000 to 1:5,000,000.

The population data presented here are of a summary nature (Summary File 2). They are grouped by Tribal Subdivision. This provides summary population data appropriate for viewing

at the scale of the entire Navajo Nation.

Note that the Tribal Subdivisions are generally equivalent to Navajo Nation Chapters. The boundaries are not exactly the same. Some boundaries are substantially different. Furthermore, the chapters in this census data are not up to date. Some tribal subdivisions do not accurately represent that a chapter has been split into two. For example, the Red Valley Tribal subdivision actually comprised the Red Valley and Cove Chapters.

Use of this data generally requires computer workstations with ESRI's Arc/Info (7.x or above), ArcGIS (8.x or above), or ArcView (3.x or 8.x), or some other GIS or CAD software that is capable of reading or converting this dataset.

The data are provided "as-is," without warranty of any kind, either express or implied.

These data have been compiled as part of a desktop project to collect existing spatial data to support the study of Navajo abandoned uranium mines. No field verifications were undertaken as part of this desktop study.

**State or province:** NV

**Postal code:** 89120

**Country:** USA

**Process step:****Process description:**

Spreadsheets of SF-2 population data were downloaded from the US Census Bureau in 5 separate area files as listed in the Source Information. These areas and the geo and data spreadsheets were merged to produce a merged Navajo Nation SF-2 spreadsheet. GEO\_ID value for Shonto in the Hopi Nation was deleted so it would not join to the Shonto Chapter population data. These data were joined to "nn\_tribal\_sub.shp", creating the final shapefile "nn\_tribal\_sub\_w\_pop.shp". The headers for each column are codes. These codes are in the spreadsheet called "Population Code Definitions.xls".

**Overview description:****Dataset overview:**

608 polygons represent the 2000 Tribal Subdivisions (Chapters) for the Navajo Nation.

**Entity and attribute overview:**

FID, Shape, AREA, PERIMETER, TS99\_D00\_, and TS99\_D00\_I are non-thematic attributes. The attributes AIANACE, AIRSUBCE, LSAD, LSAD\_TRANS provide information on the Tribal Subdivision census geography. The attributes GEO\_NAME, GEO\_ID, AITS, CHARITER, SUMLEVEL, describe the Geography or Tribal Subdivision Name, Geography

Identifier, AITS is unknown, Race or Ethnic Group, and Geographic Summary Level for the US Census Bureau Summary File 2. The 109 attributes that start with "DP1.C" are the population statistics from the US Census Bureau Summary File 2. DP1.C0 to DP1.C1 provide information on Total Population. DP1.C2 to DP1.C48 provide information on Total Population by gender and age. DP1.C48 to DP1.C74 provide information on Population by relationship, age, and place of residence. DP1.C75 to DP1.C100 provide information on Households by Family vs. Non-Family, marital status, presence of children, age, and number of residents. DP1.C101 to DP1.C108 provide information on Housing Tenure by number of housing units, owned vs. rented, and average household size.

The detailed description of Summary File 2 Population data follows:

Navajo Nation Reservation and Off-Reservation Trust Land, AZ--NM--UT  
Census 2000 Summary File 2 (SF 2) 100-Percent Data

## Distribution Information:

**Distributor:****Contact information:****Contact organization primary:**

**Contact organization:** U. S. Environmental Protection Agency, Region 9,  
Superfund Records Center

**Contact address:**

**Address type:** mailing address

**Address:**

95 Hawthorne St (SFD-7C)

**City:** San Francisco

**State or province:** CA

**Postal code:** 94105

**Country:** USA

**Contact voice telephone:** 415-536-2033

**Resource description:** Downloadable Data

**Distribution liability:**

Although these data have been processed successfully on a computer system for the US EPA, no warranty expressed or implied is made by the US EPA or its contractors regarding the utility of the data on any other system, nor shall the act of distribution constitute any such warranty. No responsibility is assumed by US EPA or its contractors in the use of these data.

**Standard order process:****Digital form:****Digital transfer information:**

\***Transfer size:** 0.456

\***Dataset size:** 0.456

**Custom order process:**

Contact the US EPA for a custom order.

**Technical prerequisites:**

Use of this data generally requires computer workstations with ESRI's Arc/Info (7.x or above), ArcGIS (8.x or above), or ArcView (3.x or 8.x), or some other GIS or CAD software that is capable of reading or converting this dataset.

**Available time period:****Time period information:**

**Single date/time:**
