Dear Dr. Samet:

Thank you for writing to me with comments on the document, *Risk and Exposure Assessment to Support the Review of the Carbon Monoxide Primary National Ambient Air Quality Standards: First External Review Draft*.

The comments from the Clean Air Scientific Advisory Committee CO Primary NAAQS Review Panel have been quite helpful to me and my staff as we continue to refine our assessment of exposures and health risks associated with ambient CO. Our consideration of the Panel's comments will be reflected in the second draft risk and exposure assessment document.

Again, I thank you and the Panel for your efforts, and I look forward to continuing to work with you in the future.

Sincerely,
